

## WAND Online Learning Taxonomy

Online Learning has become just as important as in-person learning since 2020. Teaching and learning now have more elements than ever before! From instruction models and policies to course metrics to technology resources and presentations, the amount of energy and effort put into learning is astronomical. And the documents and data generated alongside all these elements matches. With WAND's Online and In-Person Learning Taxonomy, you can organize your documents with ease, train your AI with speed, and begin to use your company's documents and data in no time! The WAND Online and In-Person Learning Taxonomy is relevant not only for K-12 Higher Education institutions, but also for corporate education initiatives to assist with further instruction, specialization, or certification. As with all our taxonomies, this strong foundation metadata model can be customized to include additional terms relating to your specific needs or industry.

This taxonomy contains **602** terms and **373** synonyms.
