WAND Finance and Investment Taxonomy

Money and resources. What an important aspect of the economy. As someone in the financial industry, you are probably used to the large amount of documentation and information this industry generates. You are also probably mindful of ensuring these documents don't get lost or end up in the wrong portfolio. But do you have the same eye towards your data? With WAND's Finance and Investment Taxonomy, you can organize your information with ease, train your AI with speed, and begin using your documents and data in no time. As with all our taxonomies, this strong foundation metadata model can be customized to include additional terms relating to your specific needs or industry.

This taxonomy contains **3,188** terms and **2,308** synonyms.
