

WAND Wholesale Taxonomy

As a person who deals with wholesale products, you are probably used to buying large quantities of goods directly from manufacturers or distributors to resell them in smaller quantities to other businesses. During this process, you have also probably encountered swathes of data and documents attached to those large quantities of goods. But how effective are those documents and data? Are they adding to your business or dragging you and your business down with them into the depths of dark data? With the WAND Wholesale Taxonomy, you no longer need to let all that data go untapped! You can organize your documents with ease, train your AI with speed, and begin using your company's wholesale documents and data in no time! As with all our taxonomies, this strong foundation metadata model can be customized to include additional terms related to your specific needs or industry.

This taxonomy contains **495** terms and **583** synonyms.
