

## WAND Semiconductor Manufacturing

The WAND Semiconductor Manufacturing Taxonomy has 587 categories and 504 synonyms.

Top level terms include Discrete Devices, Integrated Circuits, Materials, Optoelectronic Devices, Programmable Logic Devices, Semiconductor Fabrication, and Semiconductor Manufacturing Equipment.

The WAND Semiconductor Manufacturing Taxonomy provides a strong foundation of terms and can be easily customized to meet the needs of a semiconductor manufacturer.

### Semiconductor Manufacturing (587 Terms)

- Discrete Devices 213
- Integrated Circuits 38
- Materials 20
- Optoelectronic Devices 5
- Programmable Logic Devices 3
- Semiconductor Fabrication 270
- Semiconductor Manufacturing Equipment 31
