

WAND Management Taxonomy

This taxonomy was designed to complement our many businesses, education, and nonprofit taxonomies. Management helps organizations increase the efficiency of the business by increasing productivity through organizing, planning, controlling, and directing. Written with an easy-to-use hierarchical structure, the WAND Management Taxonomy provides the metadata model needed to organize your information with ease, train your AI with speed, and begin using your company's documents and data in no time. As with all our taxonomies, this strong foundation metadata model can be customized to include additional terms relating to your specific needs or industry.

This taxonomy contains 218 terms and 162 synonyms.

- Management Documents and Reports (73)
- Management Functions (88)
- Management Levels (51)
- Organizational Structures (2)
