

## WAND Police Department Taxonomy

Police departments are fundamental to a society. They protect life and property, enforce criminal law, perform criminal investigations, regulate traffic, control crowds, perform public safety duties, manage emergencies, search for missing persons, and so many other things. This taxonomy is ideal for any police or sheriff's department whether it is a local, city, or county department. Some important sections to highlight in this taxonomy include specific services provided to the community such as Victim Support Services and Education Services. As with all our taxonomies, this strong foundation metadata model can be customized to include additional terms relating to your specific needs or industry.

This taxonomy contains 1,527 terms and 1,237 synonyms. Top level terms include:
