

## WAND Legal Taxonomy

Every year, more than 100 million cases are filed in state trial courts. With that many cases coming through every year, one can only imagine the number of documents, data, and information that's generated. But what happens to all that information once it is generated? Is it effectively being utilized, organized, and stored? Chances are if you are reading this, it is not. But WAND's Legal Taxonomy can help! With this taxonomy, you can organize your information with ease, train your AI with speed, and begin using your company's documents and data in no time. As with all our taxonomies, this strong foundation metadata model can be customized to include additional terms relating to your specific needs or industry.

This taxonomy contains 3,763 terms and 1,868 synonyms. Top level terms include:

- Contracts
- Courts
- Law Firm Management
- Legal Practice Areas
