

WAND Higher Education Taxonomy

The WAND Higher Education Taxonomy is designed to meet the complex document management needs of institute of higher learning around the world. Institutes of higher education are complex organizations with many functions outside of academics. The WAND Higher Education Taxonomy reflects this complexity and is ideally suited as a metadata model for unstructured information at any higher education institution. As with all our taxonomies, this strong foundation metadata model can be customized to include additional terms relating to your specific needs or industry.

This taxonomy contains 969 terms and 230 synonyms.
